

Disk Cartridge Backups (REV, QuikStor, GoVault) Made Easy

This guide explains how BackupAssist makes Disk Cartridge backups easy. Thanks to some clever design features and an intuitive user interface, users and system administrators alike can enjoy a powerful and yet simple backup system.

For the user

Maximize your investment

BackupAssist recognizes disk cartridge devices individually and tailors your backup strategy to make the most of the new hardware.

Backup schemes

Built-in backup schemes with different levels of media rotation give you a secure protection strategy "out of the box", with backup history and optional archiving.

Clear instructions

Clear instructions are emailed to the backup operator whenever action is required (eg. change of media)

For the system administrator

Easy setup

Easily select your backup device, and fine-tune your hardware settings.

Media tracking

Use media tracking to ensure that your client is rotating disk cartridges according to the selected rotation strategy.

Flexible file naming

Fully customize the backup filename for easy management and retrieval.

Keep local copies of backups

Keep a copy of your most recent backups on a local hard drive for fast restores (eg. keep the last 5 backups). This option adds an extra layer of data protection to your disk cartridge backup.

Media usage reports

Media usage reports clearly indicate how much drive space has been used by backups on your cartridge device; this means that you can plan ahead and upgrade the capacity of your backup system to accommodate future increases in data.

Customized scheduling

Built-in backup schedules can be customized to your specific requirements including differential, incremental, copy and append backups.

Quarter	Full	Overwrite	<input checked="" type="checkbox"/> Swap before backup	<input checked="" type="checkbox"/> Eject after backup
Month	Full	Overwrite	<input checked="" type="checkbox"/> Swap before backup	<input checked="" type="checkbox"/> Eject after backup
Week 2	Full	Overwrite	<input checked="" type="checkbox"/> Swap before backup	<input checked="" type="checkbox"/> Eject after backup
Week 3	Full	Overwrite	<input checked="" type="checkbox"/> Swap before backup	<input checked="" type="checkbox"/> Eject after backup
Week 4	Full	Overwrite	<input checked="" type="checkbox"/> Swap before backup	<input checked="" type="checkbox"/> Eject after backup
Week 5	Full	Overwrite	<input checked="" type="checkbox"/> Swap before backup	<input checked="" type="checkbox"/> Eject after backup
Tuesday	Full	Overwrite	<input checked="" type="checkbox"/> Swap before backup	<input checked="" type="checkbox"/> Eject after backup
Wednesday	Differential	Overwrite	<input checked="" type="checkbox"/> Swap before backup	<input checked="" type="checkbox"/> Eject after backup
Thursday	Incremental	Overwrite	<input checked="" type="checkbox"/> Swap before backup	<input checked="" type="checkbox"/> Eject after backup
Friday	Daily Copy	Overwrite	<input checked="" type="checkbox"/> Swap before backup	<input checked="" type="checkbox"/> Eject after backup

Additional Facts About Disk Cartridge Drives

Advantages

- ✓ Achieve benefits of both tape and disk
- ✓ Robust
- ✓ Cartridges can be stored offsite
- ✓ Media rotation for archiving and backup history
- ✓ Fast access speeds

Disadvantages

- ⚠ Most backup software packages other than BackupAssist will treat disk cartridges like ordinary drives, and do not maximize the potential of this new hardware technology.

About BackupAssist

The premier backup solution for small and medium businesses built around 4 key principles:

1. Simplicity, simplicity, simplicity

- Makes your backups work like clockwork: set and forget
- The right feature set for small and medium businesses
- None of the unnecessary frills that complicate other solutions

2. Makes system administrators' lives easy

- Intuitive interface, minimal administration frees up your time
- Setup and configure in 7 minutes; no certification required!

3. Makes users' lives easy

- Easy to read reports; identify problems before they occur
- Emails simple instructions when required so you can't go wrong

4. Uses existing backup technologies

- Well proven methods for backup / restore; restore from any Windows machine
- Delivers cost benefits by not reinventing the wheel
- Solutions for Server & Workstation backups, Active Directory, Exchange Server, SQL Server, Local and Remote/Internet based backup, and more

With thousands of sales in over 70 countries, BackupAssist is fast becoming the backup software package of choice for businesses, schools and charities.
